

2015 SJE STAKEHOLDERS' MEETING

2015 SJE STAKEHOLDERS' MEETING

Home and School

- Provide more opportunities for fellowship among families (suggestions provided)
- Create a greater presence on campus (suggestions provided)
- Try branding Home and School with a color or logo
- Publish Home and School calendar at beginning of year to help plan

Marketing and Communications

- Call for Alumni in parish bulletins
- Invite parents and business people into the classroom and develop programs where students go out on work experience days to local businesses
- Marketing through technology (suggestions provided)
- Cultivate relationship with Porsche and other businesses in Hapeville
- Increase public awareness through advertising, technology, and community events (suggestions provided)
- Expand Renweb's capabilities to expand communication
- Continue use of calling post and text messages
- Provide better communication to non-English speaking families

Security and Facilities

- Name buildings to ensure each individual component inside is known for ease of finding people/locations (Enrichment Center)
- Partner with church to ensure signage is consistent, such as with parish office, so it is easy to find everything
- Enhance security measures through the use of cameras, lighting and limiting access points
- Ensure water and electricity usage are efficient

Programming and Curriculum

- Provide evening programming for parents that touches on curriculum and emotional development (suggestions provided)
- Consider bringing back summer camps
- Science fairs/Art night to showcase student talent
- Better prepare students for the transition to middle school
- Add more after school clubs like drama and music
- Continue planning language immersion group

Technology

- Increase functionality of Renweb and school website (suggestions provided)
- Continue use of social media
- Reduce use of paper by relying more on technology to facilitate communication and payments (suggestions provided)
- Make the audit or donor feedback information available electronically
- Create more STREAM projects
